

# GATEWAY PLAZA TENANTS ASSOCIATION

Dear Tenants,

Welcome home! We hope that all our Gateway neighbors fared well during this challenging time and arrived back safe and sound.

Throughout the week, under trying circumstances, members of our tenant association stayed on site, working with management to collect updates and information in order to keep our residents informed, including those in Building 400, who were without any electricity, water, landline service, or cable.

We want to offer our heartfelt thanks to the management team—Greg Tumminia and Roseann Coraci—and to all their staff, including our doormen, security, and technical crew who collectively worked tirelessly on our behalf. They labored around the clock in order to restore services to Gateway as quickly as possible.

As the week unfolded, the GPTA provided morning coffee for adults, candy for kids, and co-hosted three consecutive nights of potluck meals in the lobby of Building 600, including a pizza night—which was kindly provided by the management. It was great seeing our neighbors all together, meeting new friends and offering one another support. A special note of thanks to GPTA Executive Board Member, Peg Wallis, and to Rosalie Joseph, founder of the BPC Neighbors Network and BPC Cares, both of whom generously collaborated with us on all the events of the week.

A crisis such as this one reminds us all of the importance of neighborhood connections. It's been so essential to get updated information to all tenants, and to tend to residents who are disabled or elderly. Both the management and the GPTA need a more reliable system for contacting and updating tenants in situations like this one.

With this in mind: **The GPTA is endeavoring to compile a complete E mail list so that we can, in future times of crisis, notify and update you on all critical information you need to know.**

So please, **Forward to us your name and E mail address**—and we will always keep you informed. You can drop us an E mail to: [GPlazaTA@gmail.com](mailto:GPlazaTA@gmail.com) Also, please visit our new web site, [www.GPTA.org](http://www.GPTA.org).

We want to help you with any issues important to you. That's our job—so please contact us.

All the best,

Glenn Plaskin  
President of the GPTA
